

GEOLOGICAL SURVEY OF CANADA,
George M. Dawson, C.M.G., LL.D., F.R.S.,

DEPUTY HEAD AND DIRECTOR,

MUSEUM AND OFFICES, SUSSEX STREET, OTTAWA.

Nov 30 1897

My dear Father,

Yours from Mrs
on Sepidophloeos duly recd.
per William, who has
just been down to see me.
I will go over it carefully
& return to Bourinot as
you wish. Should any
question occur to which
I cannot decide I will
refer it to you, but otherwise
you need feel no anxiety

further about it. I
 presume, however, that you
 would like to have some
 extra copies struck off,
 & if you have not already
 arranged this with Bourinot
 & will let me know, I
 will send in requisition
 with the proof, which
 will be most appropriate.
 I trust that this fine clear
 light cold weather may
 help you - it certainly
 wakes the outlook wiser.

Careful.

Yours
 Leage
