My dear father,

I am sending
you by post a copy of the
biography of W. K. Parker,
written by his son, my
particular friend when at
the Royal School of Mines
& who died last year in
New Zealand. I ordered
the book when we were speaking
of your biography, because I
had seen it referred to as
a model in regard to the

treatment of such a subject.
This evening I have read
it & find it a most
interesting little sketch. You
will be pleased I think in
looking over it. The type
is large & clear & it is
easy to read. Parts of it
are a little technical but
not much of the whole.

Yours

George
