

Dr. G. M. D.
Dec. 9. 98

Acc. 1377

My dear Foster,

Yours of
Saturday I heard with
pleasure of fossils borrowed
from Peter Redpath
Museum by Mrs Lamb,
I will look after them
& see that they are returned
as soon as done with.

I regret to say that there
is no one here now doing

Capillary work - The
 only way of getting things
 out that I know of is
 through Herks in Montreal
 who has someone (or bad)
 that works for him.

I am glad to hear that
 the postoffice got safely off
 at last a hope that
 mother & Anna were
 pleased with it

Yours
 Georgy
