

Dr. G. M. D.

Dec. 12. 98

1377

My dear Foster,

The address is
Prince Kropotkin, Viola
Browley, Kent, Eng.

I have received the copy
of See also which you
asked we should send to
Kropotkin, but you
will remember sending
copies to the Geol. Section
of B.A.S. Meeting at
Toronto. Of these Kropotkin
I know for me, I might

2

draw his attention to
the passage you allude to
when I write, as if you
like I can of course still
send him the second
copy.

Such as you say in
a recent letter about
Matthews & should be
glad to utilize his
work in connection with
the Survey if possible.
So far as I know, however,

On way has been
 fabled out in which
 this could be done. of
 course if he had a monograph
 prepared on any subject
 the question of its publication
 might be considered
 but his contributions have
 generally taken the form of
 articles sent to the

R. S. Can.

Yours
 J. C.
