

Geny
Ottawa March 31

Dear Father

I received safely the
plans & memos. on Pictou
iron. There was no ~~rep.~~
printed report, but the U.S. copy
only. I have, however, borrowed
the printed report from
Mrs Plunkett & furnished
him with tracings of plans.
The only plans in the printed
report are several on a small
scale, showing areas etc, & the
sections of the ~~etc~~ veins etc are

not given, though I think
 they were published somewhere.

I have asked permission &
 arranged with Prof. Macoun to
 send to you for the Collyer
 collection specimens of all my
 B. Columbia plants which are
 in the collection (McClure's
 Paris collection I mean)
 He will probably send them
 some time in the Spring.

Yours affectionately
 George
