

Wednesday

Very sorry to have been late per the
mail yesterday - I did not know it
now leaves at 9 o'f. Last night received
from you your letters, so that no time was
gained by mailing in the one. I suppose
there is no one at the station to bring ^{the letters} here when
they arrive so they remain till the ordinary hours.
The Harringtons are all well - Anna & the

children bathed yesterday & found the
water quite pleasant. today it is
cloudy & rain has fallen through the
night. I hope it will revive my plants
for notwithstanding much care bestowed
upon them they have drooped & withered while
B's have done nicely. I suppose they were
taken direct from the bath. I was out doing
all yesterday morning & evening & had no time
for writing.
