

July 19, 50

Dear Margaret

I am going to write you a shabby little letter, as I have several things to do and must part this afternoon. We got down very comfortably the day being mild, and the ship not heavily loaded. I went to the Halifax House Granville street, and after getting a cup of tea, set out to see Mr. McKinlay G. A. Young & Co. I also went to Dr. Jizer and had myself vaccinated with genuine fresh - lymph. I was able to do a good deal as we arrived at 6 o'clock. I went to bed at 9 and slept merrily - To day I have been making arrangements about tickets &c, and am getting it done very agreeably. They have about 90 pupils at the college, which is fitly a pretty "tall" clap, though I suppose only the other half will come - In the afternoon I see about your watch and some other little things. The house where I am is a kind of country house with only 4 boarders, one of them Robertson the member for Peter. I have been looking about but do not yet see any
