

We are all well here at present,
Mr Poimrose was visiting us a few
days ago, and they were all
well - I saw Mr & Mrs Weston yester-
day and they are all likewise
in good health. Mr Reid, &
Lennie had a daughter lately,
and they are both doing well,

With respect to our own family
individually, I may mention that
George with his family were well
when we heard from him a few
days ago. Gordon has gone to
St. Louis, Mo. there, and settled
there, with a fair prospect of success.
He is not likely to become rich but
with diligence and perseverance he
will obtain a comfortable living for

a Country Doctor. I am happy gone
with him to keep house in the mean
time. She is delighted with the
place, and although there is little
society - there is one family, that
of the Manager of the Estate (Mr
Matheson's of Ardross & Ault) with
whom she has very pleasant intercourse.

The reason for his going thither was,
that he was invited to settle on Mr
Matheson's property on condition
that Mr M. would give him a
comfortable house, garden & field
free, with £50 a year for attending
his family & dependents. and Mr
Matheson also uses his influence with
neighbouring proprietors who to secure
him a fixed sum yearly, altogether
he has promised of £70 a year to begin
with, and while he has here only a

fortnight in the flour, he has got
several patients, and seen many
farmers around who promise
to employ him. If he enjoys good
health, although he will have some
hard work, I think he will do
very well. There is a small
town about 3 miles distant where
is a Doctor - and the next nearest
town is "Denjwall" 10 miles distant
and in the opposite direction "Jain"
12 or 13 miles off.

I am glad to inform you that
Margaret has confessed Christ
a few weeks ago, by being baptized
in the name, and added to the
church in White Place, where Leslie is.
