

London Dec 6/78

Acc. 946

Dear Mamma,

I have used up  
so much time in writing to  
William that I really must soon  
be off to the laboratory.

I yesterday received 2 letters, enclosing  
two from you, to be mailed, & one  
from papa to Dr B Jones. Also an  
account of Anna's trip to Quebec.  
No one however mentions how  
long she is going to stay.

I received a note from Mr  
Andrews a day or two ago, asking  
me to go out & see him, I am  
going there tomorrow. Dr Bessy  
has also kindly asked me to go  
with him next Monday to a  
meeting of the Geographical Society.  
& also to dine with him that

evening. Mrs B is I am  
to say rather worse, & can  
see anyone.

I have managed to see  
a good many things in my  
Christmas holidays, but have  
now been at work again since  
the beginning of this week.

My last excursion was to St.  
Pauls. I went up into the whispering  
gallery, & down into the crypts,  
& there saw the tombs of Wilson  
& Wellington, & also Wellington's  
funeral car, which is preserved  
there. The post which I  
mentioned in my last is  
over long ago, & mild wet weather  
has set in again.

With best love to yourself, & all  
at home,

Believe me your affectionate son

George.
