Hamilton says that the
& leaves from P. S.'s Island
have come & are in the museum
The walls are put in -

Saturday

Dearest mamma,

As the breakfast is not quite ready I sit down to write you a few hasty lines - our journey was very pleasant we had no trouble on the way, I got in, in good time Mr. Hamilton & Alfred were at the station, so our luggage was no concern to me. Marie & her sister arrived here yesterday morning, I have not spoken to her yet, but will do so after breakfast, on hot of jam was broken

It a good deal of it
baked out, but all
the r. vinegar etc was safe.
The house seems all right.
Jinner came in & slept
with me, which prevented
me feeling at all lonely -
she seems to have caught a
cold, which is a great pity,
but I daresay will not be
much - There were two
letters here for paper, one
I enclose the other was
a printed notice of Mr
Farbes' death - as follows
"Prof G. Farbes M.A. of
Mc Gill College Montreal
died here on the 16th Inst.
at half past 6 of P.M.
Banquet August 17 August 1877"

Of course there is no news
Weather cool, & lots to do
I will write again to-
morrow probably & tell
you how things progress
Best love to Auntie in
which mine joins -
Yours very loving
Anne

The blotting paper deserves
its name & has blotted this
excellently -
