It has just arrived
 that he had
 nothing about a present
 thinking he had
 done so I will
 name a few things that I have
 looked at you can say
 would be but as

rather which of them they
have not already got -
A small silver basket that
would either do for fruit or
etc - an egg cruet - a pair
of breakfast cruet. A pair
of bronze figures for side
board or Mantelpiece a pair
of silver mounted dishes that
either do for preserves or a
small ^{an. depending on the rest =} silver
dish with white pudding dish
filled in for a pudding or

closed.

Trust something quite safe
the dish to stand putting
into the oven you might
kindly write by return & there
would still be time to put
it into the trust, a single
line will suffice with no pre-
tence such as it is out of
the question getting anything
further so seeing it is a
present for William & Harriet
& not for yourself you are

just to name which you
think best. I hope Uncle found
the map of Palestine he was look-
ing for. With much love to
Mamma
