dearest mother,

We have again had news of you through Eva & I think I ought to address this to Eva but as there are various household & other matters to be mentioned & concluded that politeness demands it to be sent to you all the Cottage people are now elderly & the holes filling up - Mrs Frank is having a perpetual hammering at her cottage - 3 rooms being in process upstairs & windows knocked out on her side like this  & a small kitchen at the other side - meantime she has 3 servants, her 4 children & Miss Farley with her & I believe her mother comes in night - Florence is very finely dressed this year & quite enjoys the house she indeed has quite blamed out & says calls & bestows favors & is the lady of the manor in general Clara talks as if she considered nursing a hardship - but she does it - well & takes the whole care of the little boys who seem happy & cheerful with her - Florence only has them as far as I can see for a half hour or so twice a day - so her summer ought to be a rest to her - she does not seem satisfied with the cook - but she cooks fairly well - I do not think your claret stairs will be at all spoiled, for the children are rarely there - I might see their nursery & Mrs Fleet is knitting a picket for Mrs Kelly wh. is to be sent in fall by Mrs Denton

I both she & Emily Boney enquire
continually how all goes at the Hospital.
We are very destitute of gentlemen
at present - but Mr Boney & Mr Taylor
are expected down tonight -

As to home coming it seems a
long way off but as the steamers no
longer call at Weinauski, & there
will be a difficulty as to shutting up
your house (that is - Flareca cannot
stay late enough to shut it up after
you wd go - & you certainly wd not
want that business) Mary & I. is to
sail on the 9th & the talk is that she is
to return before H. mas - & - well
probably have to go up the 3rd or 4th
paper says he wd best go 1st or 2nd &
Mary will be waiting for him at
Mrs Carpenter's - whether Clara will
stay & help & - shut up here, or go with
paper I don't know - but I hope you
don't think of leaving before the 26th
as that will only allow 2 or 3 days
to let the servants put things in order
& Mrs Fleet usually stays till the
9th or 10th - & if they cut off the summer
train early it - they wd - as all to
go sooner than we wish, unless
willing to leave a 3rd - O. N. start.
I will stay as late as I can -
but that depends upon this B. K.
business & other things also - I
will try & find out before he comes
down &

If you still have any shopping
to do I wish you wd get me a
macintosh of any kind - I do
not care for a costly one, as I never
use it to walk in, unless really wet
& mainly as a cover to other clothes.
I kept hoping that my last one wd

up - I suppose I felt - now it may not fall coming, it may be
late to see about - as I had to see now, I think it is not doing
convenient especially as the business has been a pretty
mess all day and the a few clerks ^{are} great buttons ^{are} staying
pany all day long -   The matter is a little longer
that things for the streets, and I have a letter for Birmingham
I address her page tonight, one but it is not clear
rather I think things is important, do not let them
know a case for a special occasion
I'll get on very nicely, they fine weather
we could meet to see tomorrow - I have received the
writing now into the hall room where the little
girl used to sleep - I see her the new room upstairs
class & health of little Bernard show the report room
I had intended to see - the one I see best when in
she is in charge of the children - I have sent her
their own work of the girls of the maid only English
the article & takes up water - I give a French
knowing all around - I thought - I have a new
sheet of drawers for my room, I have a new
girl's room - so far between things we have nothing
I think that I just that I see are not - I have to see if I
a great deal of business - I have a new maid, he has
had a great deal of work since we were in
I have a new maid, he has a new maid, he has a new maid

the objects of which I do not know, but I feel well
to making matters another in the future. I say
there is no fear man outside the University - I say
as much as as a creature who takes matters as they
are can see a fault - I alter his views when he sees
cases -

Baby is looking splendidly & is growing a very pretty
child - Louis has looks very well & I put up with his
improvement - I make her the same very day after
has half an hour - all the others look well - I consider
the weather if it is great - secure for the future - I consider
to sweet baby's return - I hope for their interest that she
had the cold. Louis - I hope for their interest that she
name - I think it very likely - I hope for their interest that she
heard suggested I like David best - why do you not
be sure her eyes are not going to be blind - I hope for
mistakes but not - I think I have not - I hope for their
favourite names - but I never get pregnant are one of
their beauty - I remember when that was made
disturbed like

as Taylor has come down again he is a
great - avoid - have - I have a - I have a
great - she will have the established reputation of making
great wife - she is very happy & a comfortable way to make
long ago, well - I hope for their interest that she
