REF. 36

Ottawa. Oct 23.

My dear Walter,

I got a message from
you in a note from Pauline
about extending some hospital at
Sea Forge. I find that Serjeant is
going to Montreal tomorrow by the 'Sea'
train & is to stay over Sunday with
Sir D. Smith. His visit is I
suppose too short to enable you to
visit him but I thought I might as
well let you know that he will
be in Montreal Saturday evening &
Sunday. I thought of going down
myself tomorrow afternoon, but
all things considered fear that I
can scarcely do so. Serjeant has
to be done to clear up arrears of
work here & get things in shape.
If by any chance I should change

2

My mind I will telegraph
tomorrow, but fear it is
unlikely as in any case I should
have to return by post train
on Monday morning

Yours
J. W. G.
