

Wallara Place

Encl. 15<sup>th</sup>/92

Dearest Mother, I have received your long letter, I note all you say - with many thanks for kind thoughts & plans for us. The immediate result of which is only to confirm our present view that we will not put ourselves hurriedly into any house - but rather store our things, & fall back upon St. A's or Inetis till October. I do easily take enough to the former place to camp and till July - & then go to Inetis, & as there are sewers & knitters there not a few - I sh<sup>d</sup> have a grand replenishing of ward-rob<sup>s</sup> - & feel free of that for 6 months or so - & the spring enclaves w<sup>l</sup>

be lovely - Eric wd have to be  
farmed out - but that wd  
easily manage - B - has seen  
some house agents, & will  
keep his eyes open as he goes  
along -

I think you shd not  
propose opening the East Wing  
till fall - Carson W. hopes to  
have his furniture in his  
rooms till fall though he  
has given <sup>up</sup> from May &  
is going to Eng - the rest tenants  
are not moving in till fall -

he is to let me know <sup>of failing this</sup> the windows <sup>shd be</sup>  
sharply ~~had a letter~~ <sup>for this</sup>

few weeks you wd be  
here till going to Paris -  
I quite disapprove of papa's  
coming home sooner - he  
wants to keep not use his  
strength - I had a kind  
note from Dr Radcliffe about  
you both - which I appre-  
ciated.....

I don't intend to  
begin to disarrange my house.

Hotel effects for some time, H- is much easier  
to handle a business of it, than to spread  
over months - by far the side to leave  
your home intact for the present. I may  
want to put - check as pictures there  
but - I fancy the heavy things will be better  
checked in view of complications. As at  
my staying at the G- is for the weeks of  
paid to get - what needed meantime  
I'm sure you will be 16 - as is worth  
very hard. I I fancy it - is unavoidable  
though it - says upon the "all work of  
body" which I hope Christopherson  
will write - at - creates length  
later = children and - what -  
above with the sheets here just -

the small place at the College - entrance  
to the station is closed - That will soon  
pass - sleeping is nearly over already &  
now falling down sleep not - even when  
to sleep -

Write soon

Yours

Thank you for the 5<sup>th</sup>  
price - I have forwarded  
the D. P. to Mr. Mackay
