Half a dozen
notes have filled up the time
I had intended to devote to
writing to you - & if I could only
find the 3 or 4 important things
that want to be said - I would
fit them down in haste -
You will of course see of the
given to the Med. Fac. by the
S. - so they will no doubt
on regarding - At present they are
reconsidering all their plans
& may not want the honor
till later in which case even
were packed up for a month
in fall it would be much easier
for me to stay here - Inasmuch
I have really not made any
definite beginning - there were
too many uncertainties I have
occupied myself with trying to
get the summer clothing in order
& the winter also repatriated as
usual, in one large bag so that I had

not go over it - again if it has
go - or be turned out of drawers
& cupboards - I hope by the end
of this week we shall know
definitely -

I decidedly disapprove of
springing your house at all -
This even Dr. Keckick said he
hoped I wd oppose - I think we
cannot get the Sherbrooke too
many wheels within wheels - I
had care - W - at tea Friday
& the Windsor wd be the best
place - Papa can easily see
his library & get - rather to avoid
it - and when required - if he
go there, it wd be quite as easy
to move down with my own
mail - I think the dining room
suggestion wd be good - I wd
easily put an old rug or
carpet to avoid any inquiry
to the carpet & the clapping wd
be done in the sewing room
I have engaged a nurse after a
general chase - every one being
my time - I like her look - &
she seems less opinionated &
more faithful than most high
Keckick has nursed with her
has a very high opinion of her -
she has not been with Dr. B. before
but there was only one of his sury

Dear N^o 1 did not like her but took much: she was
confident & had great eyes =

There is a clock having only 2400
I think might suit you, I have spoken to Mr
about her - I have been there doing nothing to her
she has been there 8 or 9 months a quiet place
has her Alas - is said to be relieved & better
as is checked, I should if not quite happy
brost calls the beginning of the end would be
copy has spent the whole week in bed
very much among - but week & riding: she is better
I will be up today - she really can't do
I must let you know her price to see
Merits. Emma is not much of an
cook - I am C. is hard to see - very
in a house - however which is good - so far
Thank you for your letter - I have not
very often to me - has not time
has the many uncertainties with the
We are all well - I have seen

a few days' work such cold before - quite
re-covering but - she seems all right - today
she's quite like colds are, headaches. I simply
I think it's because that requires more care than the
ordinary ones - they have been very severe & quite
epidemic lately - however the test I hady are
quite themselves again - I fear you will have
chills' however as has very often in R. G. they
a new catalogue & the prices were much than
ones - I believe Canada's is as well - the
shopper - who looks I have found very good
but are a little difficult to read - I think
a substantial part - I'm not sure that an
going to what to do about all - I do not often
of the one the shopkeeper has made for Canada
I've her ankle is not right - I will fear require
roughness - quite through the summer -
with her some part - really require 4-5 days
with her summer the other evening at St. Albans's
of the important part of the, at 5-5
