DEPUTY HEAD AND DIRECTOR  
MUSEUM AND OFFICE, SUSSEX STREET, OTTAWA.

July 12 1894

Kewloops.

My dear Mother,

I got here late last  
night & have been doing practically  
nothing today, being in fact stranded  
for a couple of days till Mr. Ewing  
gets back from Victoria, whether he  
has gone to bring back some of our  
stuff which is there. The weather is  
remarkably fine, very hot during  
the day but beautifully cool &  
pleasant as soon as the sun goes  
down & I find myself wishing  
that Eric & Anna were here to  
enjoy it, though I hope that they have

been equally fortunate in  
 the Adirondacks & that I have  
 good reports from them there.  
 On arrival here I had a note  
 from Rankine which you may  
 like to see & which I enclose  
 for that purpose. I hope to that  
 you are having a satisfactory &  
 useful time at Metis & that  
 your pretty place there is all  
 in good order & condition.

It is a little difficult to arrange  
 my summer work here as I  
 wish to visit various places  
 which will entail a broken sort  
 of plan different from my usual  
 arrangement by which I have  
 been able to move regularly with

3

a single 'outfit' from one  
point to another, but I hope  
to be able to arrange it all  
Satisfactorily in some way.

Yours  
Suzanne
