Margaret A. Y. Carson.

Dear Madam.

Excuse the
bluntness of the address, as I do not
know whether you are married or single.

I deeply regret to learn of Dr. Wm's
illness; of which I saw a notice
shortly after the "Evangelist" had
been sent to him. I would not
have troubled him had I been
aware of his illness; ^{from} ~~of~~ which I
do sincerely hope he may speedily
recover. I send by the same mail
which carries this, a copy of the

"Independent" containing the article
to which reference is made. I sup-
posed it had been remitted to the
Independent by Sir William himself.

It would please me much
if I could obtain an answer to
my "inquiries"; which seem to me to
lie at the foundations of the Evo-
lution theory.

I remain

Most truly yours

(Rev.) Robert Aikman.

Please present
my best wishes to
Sir Wm. & my true
regrets at his illness.

Rev R. H. H. H. H.
