

Ottawa.

Nov. 25. 98

My dear Mother,

I saw your vote of
yesterday & am glad to
hear that matters ~~are~~ are
going better in London.

I think that Eva will probably
not send my note to Dr
Campbell Williams under
the circumstances which
will probably not call for any
anxiety by the time it reaches
her. It is scarcely the thing
to intervene between Dr &
patient unless the latter is

in extremis, I am surprised
 that you should be so bent on
 knowing exactly what is the
 matter with R's foot. If he
 or Geo. or both don't care to
 say, for reason or reasons
 unknown I think that we
 should assume they know
 best! Don't you, on Consideration?

Please thank Foster for his
 letter & the information he
 gave me in it respecting
 the Cowbman in Cape Breton.
 We seem to have got winter
 at last. Yours
 George.
