My dear Lady Dawson:
Thatcher

To express the sympathy
of the New York Graduates'
Society of Mc Gill Uni-
versity, and I am
sure I might add
of the Canadian Soci-
ety of New York, with
yours in the great

affection, news of which
has just reached me.

There can be no greater
consolation at such a
time than is yours,
brave, influential,
full of years and
labors, honored at
home and abroad,
~~his~~^{William} has gone from
a place among his
fellows which one
might covet to a

where we were and still more
inviting. How we have enjoyed
it was to be his students and
No bill, though widely scattered
with the night on ⁱⁿ a common
womanly nature of his de-
parture, and will work, & how,
to draw a line over his feet and
a thank God's for such a life and
we are. Believe me dear Lady Austin,
with warmest affectionately yours
