ACC. NO. 1463
REF. 1115/106A

The McGill Graduate Society of New Brunswick deem to place upon record the feelings of deep regret and personal loss occasioned by the demise of the late Sir William Dawson who for so many years was the distinguished Rector of their Alma Mater. Conspicuously eminent as a Scientist among eminent contemporaries he combined with great learning unusual executive ability and was equally at home in the laboratory or directing the policy of the great University which is his enduring monument.

Past the allotted span of years, his lifework accomplished he has gone into the presence of that Maker of the Universe whose handiwork was his cherished study, and in Whom was his steadfast and consistent belief.

"Were a star quenched on high

Forever would its light
Still travelling downward from the sky
Shine on mortal sight
So when a good man dies
For years beyond our ken
The light he leaves behind him lies
Upon the paths of men."
