

Worcester 1st August -

Cunningham

My dear Mrs Dawson

I was very glad to have a sight of D^r Dawson, and thought it very kind of him to take the trouble of calling upon me at our "Workshops" - it was but for a few minutes that we saw each other, both standing, for I had no seat to offer him - I thought he looked well, but thinner in the face & bronzed; I hope

he is now safe at home
again - of course you
know he went out with
Miss Pyle & her troop of
little children - no doubt
he would be interested to
know her - The day after
seeing Dr. Dawson, we went
from home, and only re-
turned last Thursday
spending the fortnight at
Kennebec, and Bangor,
which we enjoyed very
much, notwithstanding
the heat, and I think

The change was beneficial
to Mr. Cunningham, who
felt much better until
last night, when he began
with one of his attacks
and is still suffering from
them, but I hope it will
pass off in an hour or two.

I was glad to hear of your
son George being so much
better, and so successful;
it must be a great plea-
sure to you who were so
anxious about him, and
I trust your present time
together will be a very

happy time to remember,
and also that the sea breeze
may set you both up; you
for your sojourn in Canada
I think for his studies in
London. I understand you
are likely to be at Rock Ferry
by the end of this month,
but for a very short time
scarcely a week, however
I must see you, and get you
to spend a day at least
with me - but you will
let me know before you
come, and we shall be able to
arrange something. With my
very kind love I remain ever
yours affectionately.

J. M. Cummins
