

Little Mite;
Aug 9th

Acc. 1443

Dearest Mottur

I enclose

paper's letter with many thanks
It will be a great refreshment
to him to visit the West I am
sure - how did he fall in
with such a pleasant party
or was it merely accidental.

Did you observe the notice
of him quoted in Tuesday's
Gazette from a Winnipeg paper?
It gave some of his drawings &
then identified him as being
"the father of Dr George Dawson
& Dr Dawson of this city." Rather
a joke is it not - I think I will
cut it out & send it to him via
letter I have half written.

So many thanks for your kind
remembrance of Clara on her
birthday - We had a little tea
for her on the shore - Herbert had
path - the two little bladders, & 2
small wicks - W. got some fire-
crackers wh. filled the boys with
excitement - I as various grown up
strayed along - notably our fleet

I had a jug of tea brought -
down - & they all had some &
the remains of the birthday cake
last night - the helpmates came
over to tea, so we have been
horribly dissipated. The Panel
is not yet done not because
of lack of work - but coat after
coat of paint disappears in the
colour of the satin.

You sh^d see how stylish
the new sofa looks covered
with the bits of red marsee
you gave me & there was very
little work about it - the self-
edg. doing for bottom inch
& the bits accommodating themselves
to their places most amiably I
got - the late Baerbie for half a
day lately who was some help-
mate - The last - usually is a clay-
bite - a small but most
reckless child has been devoting
himself to teasing Dr. bliver's dog
& though he twice warned the
mother she never took any
care to prevent - his doing so &
finally he got a nasty bite &
several scratches on his face
as usual we were applied to
for remedies - & I hope all will
go well - another child living in
Mrs. Seveys little house - is danger-
ously ill with some disfigurement
sort of throat - Dr. Kleissler is
looking after him - sore throats

have been very prevalent all
summer - Jennie Dayalis
out - again - nearly well -

The Haynes had a large
bonfire last night & after tea
we all went there - Lute in
the old style - the Mayor's house
is still shut up, & looks dismal

It seems there is some
unpleasant item on my mind
but I cannot pencil it - in
this morning haste - Indeed
I don't intend to write again
till next week unless something
obliges me - for I must take a
turn at sewing & perusing

The pencil I will send
tomorrow, & you can do as
you like with it; I make it
over to you - If you'd ever
decide against it - have it
alone & if you think it worth
making into a present - do so
Love to Rev & William

Very affectionately
Anne
