Medical Convention

ACC1443

Dearest mammae,  
I have just received papa's telegram what in the world are you going to Richmond for. I thought you were going to stay at Lake Memphramagog till papa's meeting was done. This is the third letter that I have written to you I hope that you received the other two.

There is to be a medical convention here some time this next week, & the doctors are all getting themselves excited over it, they are going to have a conversation in the convocation Hall

next Wednesday evening, &  
Mr Mc Leach has undertaken  
to make suitable illuminations  
for the occasion. Dr  
Lorick came over here this  
morning & begged me to go  
& help as I have been working  
there most of the day there  
were about 6 or 8 families  
& gentlemen working, & are  
to be more tomorrow. They  
talk of illuminating the  
grounds with Chinese  
lanterns & exhibiting a  
large time ball light from  
some of the upper windows  
altogether there will be  
quite a fuss I expect.

I wish you would stay  
a week or so with Mrs  
Brown, you could rest there  
so nicely, & I get on famously  
with house & the children.  
Ann has been very nice &

willing & so has Eliza,  
Margaret as usual goes her  
own way without leave or  
licence. Tho' I am getting  
the children into training  
they are becoming quite ob-  
diant now, & give as little  
trouble as they reasonably  
could be expected to.

I sent you George's letter  
yesterday which I hope you  
received. Judge Day must  
have been rather disgusted  
at your only staying two  
days when he expected a  
much longer visit.

Who do you think we had  
here to tea last night? —  
— Dr Evans — no more nor  
less, he had just come  
from England in the  
morning, when he came  
here we had just risen  
from tea, so as he had

any I gave him some-  
seemed entirely to disapprove  
of Captain Trigg & the other  
officers leaving the army  
on account of the new order  
that has been issued, he  
seemed to think that the  
order was only directed  
against public preaching.  
A Miss Primrose called  
here the other day, she said  
that she came from New  
York, & was some relation  
of the Victor Primroses,  
she left her kindest love  
for you, which I send on.

William Rankie & Eva  
send their love to both you  
& papa.

Kiss papa for me & tell  
him to be sure I leave you  
behind him at Kingsley  
your loving daughter  
Anne
