Dr. Dawson

I received Dr. Dawson's letter  
this morning that I realised  
that it was I who telegraphed  
to Dr. Dawson, I fancied  
it was Mamma to you -  
however I am sure you would  
understand the reason - in  
your letter you spoke of hoping  
to see Papa in August - he  
too had been saying he would

try & be out in time for the  
meetings - We protested against  
such an idea; but we feared  
that if Dr. Dawson expressed  
strongly a desire that he  
should do so, that he would  
be sure to come & so not only  
lose part of his holiday; but  
also all the good he had  
already gained. - His winter  
work is really beyond his  
strength & he needs all the  
rest he can get to make him  
able for the strain - I know  
you will thoroughly understand  
all this, as you have cares of  
the same kind for your dear

ones. We greatly enjoy the thought  
of having Papa away from all  
hurry & business; but the house  
seems very desolate - I am  
indeed glad that I did not  
go, as Mamma urged me to do,  
for she would have been so  
lonely - As to our summer  
plans, they are as vague as  
ever, our own place here is  
looking so sweet & pretty &  
we have so much space &  
fresh air, that I would  
like to stay at home all  
summer - In any case I do  
not think we shall leave  
home before the very end of

July.

Thank you very much for your kind offer of a room, if we should go to Mebis. As there are three of us, I think we had better all go to the Hotel & that will not be very far off. Perhaps you would take me for a few days visit which I should enjoy -

Thank Dr. Dawson very much for his kind note, with its news of Papa - & also for his great kindness in even going so far as to urge Papa, not to mind the August meetings -

I do feel so sorry for your friend Miss Campbell, & can well
