MCGILL UNIVERSITY ARCHIVES	
ACC. NO.	976
REF.	

Friend

I am hardly believe
that a whole week has gone
since I parted from you
and the other dear ones at
McGill College without even
a line from me. What as
I had told you of my safe
journey and of my finishing
all matters connected with
my good housekeeper in
perfect order. I put off
writing in order to be able
to tell you something about
our dear invalid Mrs. ~~Chapman~~
from New York she has gone

In the South, her husbands
& sisters are with her. The
New York boys still think
that her lungs are not
much affected. The medicine
men here think differently
and so the friends here
gladly cling to the least
ray of hope, feeble though
it may be. It is quite touching
to see her two pretty little
children talking & happily
of the puff puff, that will
blow her away.

All here were much disap-
pointed at how fast the
coming with her. What we
had been had such weather
as to make me glad she

had not come with me.
We have had all the
winter cold & frost con-
densed into three days.
House keepers have been put
to their wits end to keep
every thing from freezing.
Kitchen stoves heating &
even the heat of Juries
taking advantage of the
time & refusing to give
out heat - Authorities say
we have not had such
a severe time for 30 years
last night we had three
storms predicted once
while it lasted it was very
severe. But this morning
every thing is bright & sunny
I know it is very silly but I
have a great deal of a
fierce wind

I wish as we had last night
Wile you tell Anna that
you Mr Charro chief
this last week after a
boy shot illness Mrs Le-
was the cousin of Phaulolle
Elizabeth Anna they were
brought up as sisters she
leaves two daughters they
will be very lovely - -

I gave Aunt Doan your
pieces. I I know her rifle
pen has not understood &
here this of so she has told
you of the alarming illness
of our dear friend Mrs
Kee where she is now staying
The Dr has just come in to
tell me there is much to
alarm and to fear for
the worst this morning -

Dear

We could spare such a
 beautiful character
 her life is such a
 privilege - of what a fol-
 lowee of the good Jesus -
 should be. It is hard to
 say they will be done. In
 such a case she was
 such a power for good
 in a large circle of young
 men with simple means
 a large loving heart &
 bestow A - But why should
 I fill this letter with all
 the serious of friends
 you only know of by
 report - Mrs Kerr is the
 sister of the Blakes.
 Jennie has just gone over
 to enquire more particularly
 I will tell you the result

But let me turn from
these sad scenes to the
pleasant remembrance of
the delightful time spent
with you. All my friends
tell me I am looking so
much better for the change.

But conscience will have
its say & then something to say
of my knowing more of life
so much of your valuable
time & do hope you are
taking a little more rest
as I am sure you are
requiring to do so.

Friends here are greatly in-
terested in the attempt
of your reading club
I am always think of you
all on the Sunday evenings.

I dined at Mrs. Wronson's
with Mr. Medpath yesterday.

loving & scriptural message
Indeed I felt it good
to be there. and this is done
very well. on Thursday morning
will you remember us
I ask for us, that the seed
of grace may fall on good
ground so as to bring forth
some fruit -

How much I do wish it
could be that you could
come with her. there are
many loving hearts here that
would so welcome you
Anna's little girl's beautiful
picture is a source of
great pleasure to my
husband he is being
I from Jessie for his
fool up beauty -
We are now going to the Women's
Meeting of the Sick Children
Hospital It is more a thanksgiving
gathering than the usual annual

Meeting with much love to all. Very kind regards to all. I am
Dear
