

with so much love
I have often thought how
very peculiar must be
the thought of a Christian
teaching the very opposite
on which the feet of the
God are trod.
You have been - often in
one thought & on one life
I have often feeling very
anxious about you, and

to do so - the dear little
I by dear
Felix Brown
you dear
from
to be

D. Wilson

Sydney NSW
Acc. 970

friend

I have been much
bigger than I had intended
in expressing to you my joy
thankful next that you
have been brought back in
safety among us again
knowing had such a delight
ful & most enviable & true
I have often thought how
very peculiar must be
the thought of a Christian
teaching the very opposite
on which the feet of the
God are trod.
You have been - often in
one thought & on one life
I have often feeling very
anxious about you, and

at other time with happier
thoughts realising that the
disobedient arms were shel-
tering you from all danger
and you have just returned
home & instead of rest have
now to take up a very
fatiguing & prominent part
in this great work which
must form a new feature
in the history of this young
country. I do judge you should
have so much care & fatigue
& yet I do feel so glad I
should be in the hands of
one so fitted to reflect
credit on the ^{new empire} ~~the~~ ^{the} ~~the~~
on this part of her Imperial
Dominion

How very very kind of you
my dear Mr. Dowry to
wish to have us with you at
such a time.

I am sure it will be a never to
be forgotten pleasure and
my where else could I have
been half so much so as with
you I share in my husband's
feeling of being assured
that all the family should
take up so much room at
a time when rooms are so
much prized -

and now my very dear
friend allow me to
join with you in the
feeling of pride & much
pleasure that the thinking
part of the world should
so appreciate the character
& talents of the dear
husband as to bestow
on him the highest mark
of their appreciation of
his great worth. "I shall
not know me I will
know it is fulfilled"

In this instance

My husband & Sybil have
been at the Andersons
& have enjoyed ^{it} very much
They will tell you better
than I can of the pleasure
they have enjoyed

I think they said they
would be with you on
Tuesday. I write the Dr that
I would leave by Boat
on Monday getting in Dr
particular at a better hour
But I find that it is
not a nice boat
so I leave on Tuesday Morning
by the Severn all train. But
unless you is there do not
think of any one meeting
me you have enough to do
to get me going to allow me
to help you in all that I
can -
