April 21/70

Dear Mr. Amos

Papa is writing the railway report & whether I shall manage to say my name before he is done is problematical. We arrived here about twelve on Sunday night - found George at the station - yesterday was spent by me packing away my clothes & rearranging my trunks while Papa & George were out getting fossil taken to different parts of the city & other business. Tho' my car went out immediately after breakfast & home just returned - exhausted with fatigue.

for the week these two days ~~as~~
has been extremely hot - like midsummer
without unprospering I have only time
to scribble this. We called on Mr. Ben
Jones. Mr. Biggie where we lunched
Mrs. Davis. She too is in great trouble
her daughter only child is very ill.

I thought papa was writing
to W. now I know he is under
to go - I must stop

Yours
Ann
