

London Oct 12/70

I find I  
have not yet  
answered  
your letter

My Dear Anna,

London again, I work,  
but as yet not very hard work. In  
fact I feel rather lazy at not having  
more to do. The mineralogy I find  
does not begin till the 8<sup>th</sup> of next  
month. At present I therefore have  
chemistry lecture from 10 till 11, then  
time to read in the library till 2  
& then natural history till 3.

The natural history notes take most  
of the evening to write up, & as I am  
writing this after having written my  
notes for today, you must excuse  
everything.

I have heard nothing more from  
Maggie Fries, & so suppose that she  
has left London before I came up.

I found before leaving Scotland that I had promised several more photographs than I had. Mamma having taken away most of my dozen with her. I would have had to pay 8/- for half a dozen of the same & so thought it better to try a dozen, for the same price at a cheaper place. This I did & send a copy (the first) by this mail. I think it is more of a success than the former, but you must tell me what you think of it. The rest I expect from Edinburgh every day.

Oct-13

I have just this morning received my this weeks letter. It being rather late. When is your great houseful going to disperse?

Your affectionate brother  
George
