Zurich, Jan
Monday.

My Dear Anna

This is what I think
about it — viz — It-
can't be helped. If a rash
youth with out sufficient cause
proceeds to extremities, he must
be ready for any extreme.
As to the fact of liking or not-
liking you are quite able to
judge for yourself, & are quite

in dismissing him or
Anybody else if you have even
the slightest doubt as to the
nature or amount of your
objection.

It's very awkward to be trusted
to for advice in such affairs

I am sure your own common
sense is the best guide under
all such & similar circumstances.
As for H. he has nothing
extraordinary about him either
as to beauty or fortune which
might mislead & consequently

Can easily be decided on a
strictly personal basis.

Don't pray put yourself out-
about it - in the least. The next
time (& there will be a next
time never fear) the gentlemen
concerned will know better, & let-
us trust - they may find a more
favorable fair. I am very sorry
you should have been troubled
in such a way. I do not
know whether there is likely to
be any room here (Mme Escuders)
just at present. I will enquire

perhaps is there is you
might like to come down here
a week or two as a change. So
far as I have yet seen this is
a very pleasant house, & nice
sort of people in it.

I have had rather a busy day
today & am just writing this before
going to bed so please excuse the
manner of the first. I did not
understand till I got in from
Dr Douglas's this morning that
the lectures were to be on Tuesdays
& Fridays instead of Tuesdays &

Thursdays as at first. I had
consequently to get my experiment-
prepared in a hurry & besides
had the tail end of my lecture to
finish. The result of the hurry
was that the H apparatus went
wrong & in the nick of misfortune
& nearly ended in winding up
the Hydrogen lecture without any
gas. However by the help of
providence & a bit of Indian
rubber tube I managed to
wriggle through.

REF. a

Dont' be afraid of H's
committing banishment to B.C.
If he hints the subject to
Selwin he will probably receive
a counter hint to the effect that
he is needed most where he
is. Think not my lively
unfeeling & believe me your
very loving Brother George

P.S. Shall be glad of a photo.
or two when you get them. As I
may write to England soon &
must fulfill promise
Geo.
