Mr. Gill bless

Wednesday

My pet - how nice mine & my sound
they mean so much of being possessed
& indeed as your letter of today says -
"it is a bond of many years & he
neither broken nor subside" mine
Anna now & always - my own child
some how life seems very long - but she
makes it sunshine - I thought I felt so
wired of living thank God I never get tired
of living - Only fancy our bride came
today she looks so well & seems so
happy -

she & Alfred seem to get on first rate
and he takes good care of her - their
rooms look very pretty & Nellie's presents
make it quite fine - she seems very
much at home already and comes
up to the upper flat when Alfred smokes
as if she had been used to it all her
life Alfred makes her drink tea
and she looks better than I have
seen her for some time -

I went to the Mc Donald's lunch-
today - Mr Mc D. was very polite -
Somehow his teeth look so Snapsia's
now - I can't like him very much -
for though he smiles a good deal -
his smile does not mean much -
I wish every day I were dead or
a man at Port Royal I have finished
the 1st vol - to like it more than I
can say - I think it would be such
a rest to have this life fixed

Thank you - but see I am in the blues Dr. I ^{don't}
I am tired, I am so disgusted with
myself every day - I hate Nina
Raynes more & more she torments
me with always wanting what she
can't get - = She used to be pretty
nice & thoughtful of every thing
Maria ? ! Mrs Griffin is down
again will she live through it I
wonder gradly loved one
