

Starting on Western trip & then
to meet at Minneapolis

June 28/83

Dear Anna

Mamma has
intended to write to you
for a day or two, but
finds herself so hindered
& overstaked that she
cannot do so; and
therefore take a few
moments this morning
merely to say that we
are all well and as
usual, and that
~~as~~ as I got the Museum
Committee & Carpenter
bumped me yesterday,
and the Normal School
is to close today. Hope

The time of severe trials
in the present is over,
and that I may have
a week or two to
arrange the matters
more peculiar to myself.
I think now of leaving
here about July 23d
to give me time to
see something in the
CW before returning to
Minneapolis on the
15th Aug.

Mamma mentioned
what you told her about
clubs. It is perhaps

The best solution of the
matter, if her blood
is kept healthy enough
to clear up the liver,
and you have every
chance of that at
the sea side. I would
give her salt water baths
and watch her bowels.

Tell Lou we miss
her very much. She
is such an unobtrusive
pup that we think
she is nowhere; but
so soon as she is gone
we miss her greatly.

1883

That is the way that
André has to be to us
reward,

Please give our love
to Bernard and the
children and believe me

Yours ever affectionately

Papa, ? (Papa)

Respect to receive in-
structions from Bernard
about his Cheques & other
matters soon,

MD
