

Beyrut
Mch 3/83

84

Dear Anna,

Arrived here
this morning and
the sights of American
Nephraries. Hope
to stay a week and
explore some of the
most interesting Geology
in the world. Blue
Mediterranean in front,
beautiful trees and
flowers around, and
snow-topped Lebanon

in the distance,

I write myself
a line or two to
catch post. We

are all well, and
weather is charming,

Still hope to be in
London by April 24.

All love to you
Bernard and all at
home.

Yours
affectionally
J. Dawson
