Dearest Love,

A line from
the laboratory just
to let you know that
you are not forgotten.
I have Mitis letters to day
— one from you, one
from Edith & one from
little Ruth, and all
very welcome. This
morning I went to Dr Bessie
to have my teeth attended
to. As I had not been to

a dentist for 4 or 5 years
I expected to have no
end of dental digging
& scraping, but ^{am} happy
to say that only one
little hole was found
requiring about ten minutes
for stopping.

Eric is inclined to wait
until next week and
go down with me and
probably will do so.
He has been carpentering
most of the day.

Last night your father
showed me a very
nice cable message.

from Sir Donald Smith
accepting in very gracious
terms the honou con-
ferred upon him and
promising to do his best
to fill the position
worthily. I am very
glad that he seems
pleased.

Evans is coming to
tea with us and I
must hurry home
with love.

Your friend B.

I have ordered the
"Star" for 3 months &
you should get the 1st with
this.
