

About to leave for Eng -

McGill College.  
Montreal.

June 24/91

Dear Anna,

I thank you very much for Mamma's letter, which I return. She seems to have had a good time in London and I am amazed, from my old foggy point of view, at her spirit and power of enjoyment. It is worth while to give her a holiday. She must have got back to Rock Ferry just in time, if not a little late. I have

a letter from Hope of  
the 13<sup>th</sup> in which he speaks  
of all as well and  
Mamma was there  
then; but he does  
not speak as if she  
had been there at  
2.5.2 when the babe  
was born, still  
she may have been,  
for he is not very lucid  
on the point; writing  
evidently in haste.

I hope I may  
have another letter  
this week.

St Barnister I think  
took the better for his  
short holiday. I hope  
I have him & his &  
come with me this  
evening, and William  
is expected by the  
8.30 train. He was  
to be at Ottawa the  
morning, and I stay  
over till the P.M.  
to get some plans he  
wanted and  
to see George.

Please say to Florence  
that I have her letter

and shall hope to hear  
before I leave as to  
anything that may  
be wanted. If any  
glass has been broken,  
I hope she will send  
measurements.

My present ex-  
pectation is to leave  
Monday night or  
Tuesday morning. I  
shall mention exact  
time later.

Love to you and  
all yours, & to Frances  
the household,  
Ever yours  
W. Dawn
