

London,

Saturday June 16/94

Dearest Love,

Eva telegraphed to me yesterday giving me your cable and its interpretation. I am sure it will be a comfort to you to have decided the question as to where one should go and I hope and pray that the choice may prove a wise one. I trust you will find a pleasant spot in the Adirondacks and shall eagerly watch for news from you there.

Eva and both the little girls have been ill with very bad throats but are better now, though Hope says that Sylvia has been greatly pulled down. They have I think left for Holyhead, and possibly I may join them there for a little while.

Yesterday I devoted to shopping and succeeded in getting some suits from Cox & Bernard which ought to prove

Amable if the price is any indication
 with one extra pair of knickerbockers
 they cost about as much as a
 third suit would for myself. I
 however felt that there was no
 use taking out anything that was
 not really good and believe that
 the things will prove cheap in the
 long run.

To-day I have been at South
 Kensington, but I do not think I
 shall go there much longer as I
 am not making so much paper
 as I did at first and find
 the work rather trying. I have
 to work in a darkened room
 which seems dismal & chilly.

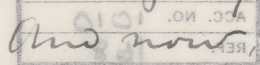

Still I have learned something
 which may perhaps be of some
 use. I am now doing a
 few days now to hunting up some
 chemical apparatus which is
 required at the college.

I am not sure whether I
 have told you that I went
 to Mr. Redpath's on Wednesday, getting

there in time for lunch and
 remaining until 9.40 p.m. Mrs R.
 was most kind and took me
 for a long drive in the afternoon
 there was a Mrs. Parkin there who
 came originally from New Brunswick
 but has been on other side for about
 six years. Her husband - also of
 New Brunswick - is the writer
 of the series of articles in Canada
 which has been appearing in
 the "Times" and he has just been
 sent out to represent that paper
 at the Ottawa Conference.

Mary Layton had been out at Mrs
 R's for the previous Sunday. I suppose
 she is somewhere in London, but do
 not know her address.

Prof. Moyle is in London, but I
 have not seen him yet. He has
 come here with his father who has
 to undergo some operation on his eyes.
 I had a note from him saying that
 as soon as he could leave his father
 he was going to hunt me up.

And now darling, I must not

with more of the full details of the
 mail. You are anxious of my
 mind. ~~There are several~~
 I shall endeavor to write to close
 by next mail and shall send the
 letter to Mrs. Baker. I hope to have
 for a second year there and to
 leave that Mrs. Baker is a success.
 Ever your friend,
 Wm. Brewster

I address this to 295 University
 assuming that if you are not here
 you will have made arrangements
 to meet your letter friend
 you. As the Ottawa conference
 has been over at the
 time of the previous meeting. I suppose
 you know the address.
 Prof. Sawyer is in Boston, but I
 have not seen him yet. He has
 come here with his father who has
 had a letter from him saying that
 so soon as he could leave his father
 he would be back here.
