

Saturday

1894

Dear Mother,

I have not been at all  
attentif to you in writing lately  
I received your nice letter one  
or two days ago. I do not find  
school at all hard it is some of  
them are too easy for me I never  
thought it would be so nice at  
school before I went and found

out by going. I thought you  
would have heard about Eva's birth-  
day long ago the present I think  
she was most pleased with was  
Loise's it was a little bracelet  
made with a chain and a little  
padlock it is really meant for a  
key ring I think but anyway  
she is very much pleased with it  
for she always wears it, she had

Helen and Constance to tea  
poor little thing she was so  
happy. Clare and I went to  
Miss Phillips yesterday for the  
first time she put me into  
charable I like it so much.

Elare has had a bad tooth ache all day.

Dear little Baby gets sweeter and sweeter every day. Uncle Frankine presented Elare and I with a beautiful pure silk ~~the~~ each today. They are awfully nice ones they have never been worn at all mine is a white one with pink on grey stripes. ~~It~~ it goes something like that - but - the pink is so light and the grey so dark that it looks so pretty and tasteful. Elare is fawn with brown and blue stripes mine will do to wear next summer with my quimbo and pel-

it seems to good for every day  
use. I was just thinking the  
other day that if you did  
get me a watch on my birth-  
day that it would not be  
necessary to get a chain  
because you have a little  
leather watch case to wear  
on your arm which would  
do nicely if you would  
lend it to me. It is  
getting quite late.

Good bye dear dear

Mother I will have to  
stop now please give Eric  
my best love From Ruth.
