July 12. 95 -

My dear Anna,

How soon?
The 5th I am glad to
know that Conrad appears to
be progressing satisfactorily. When
you get this you might write
again to say whether he has got
far enough to use a bicycle
as I don't want to impede
his recovery by spurring him
up to too much exertion too
soon. I wrote to Father the other

day & not remembering
 at the moment whether you
 or Walter had asked the
 question about the Hammock
 chair, sent the reply & in to
 Cambridge. It seems that
 the chairs are or were made
 here & are in fact not to
 be had, although there is a
 Company at Paris Ontario
 which makes a seat somewhat
 similar - The Hammock
 Chair Co. Weather has been
 very pleasantly cool lately -
 almost chilly at times, which

means I suppose that you may be having
 fits of nerves. The only particular heat
 lately has been in the political situation, about
 which one bears a good deal here, & this seems
 to be cooled off too, for the time. Prospects
 now are that the session will be brought to
 a speedy close, without any more crises;
 but with the prospect of another meeting of
 Parliament before very long & take up the

burning questions, which are only postponed.

Yours

George
