

Molson
garden party
girls.

Montreal

Sept. 17th 1895

Dear Aunt Lore,

This has been a beautiful day and the Molson's garden party was a great success. The little girls went with me as Mrs. M. insisted upon their coming and they seemed to enjoy themselves & certainly enjoyed the ice-cream. Mrs. Sirlix Skelton was there. She and her husband have been here for a short time and may possibly remain until the end of the month. He has unfortunately caught cold and is in bed to-day. Donald

down here on Saturday.

I have not written to
St Andrews for eggs yet, and
perhaps it will be just as
well to get them from Landy
if he will supply the box or
boxes.

Mrs. Cairns-Wilson's letter does
not seem to throw much
light on the situation. If her
new servant is not coming
out before the middle of
October I suppose she will
want Millie back as soon
as possible after her return.

I fear it will be very difficult
to replace Millie.

Love & all from
Tom and Bernard
