My dear Anna,

Many thanks for your
note of the 12th. I fear that you
must be having a rather long
time in Waterloo. You do not
tell me what the doctors presume
about baby. How long is he to
keep you in Waterloo before
it may be safe to move him &
what do they attribute his
singular affection?

I had a ride from Clare today,
from Metis, thinking we for my
offer you a bicycle & apparently ^{regretting}

very much that medical views
 of theoretical kind had
 prevailed for years being provided
 with a machine.

I had a note from Rantier
 the other day dated June 2nd,
 from London - no particular
 news.

Let me know when you are going
 to the Continent & when Bernard is
 to be back, when you know.

Yours
 Gray
