Montreal
Aug 26th 1898

Dearst Love,

I have moved into the new office and write you the first letter at the new desk which has space for everything and which I fear will soon have things for every place.

We have had showery weather for several days but I hope it is going to clear up by tomorrow.

Yesterday I went out to Beaconsfield and dined with the folks, returning to

Montreal about 11 o'clock.
The 7 rank Scots were
there and also Durnford,
so there was a very pleasant
party.

Deacon has begun at
the hall to-day. It was
nally so very bad that it
was necessary that something
should be done to it. I
have yet to get the paper
and sincerely wish you were
here to select it. On the
whole I think it is best
to have a dark clad with
light paper above as an
present.

As yet I have heard nothing

of Dr. Walker, but see by the papers that Dr. Peterson is on his way out. I hope Walker is not with him as I am not yet ready to receive him.

Kate was up at the home to-day, having just returned to town. She certainly looks much the better for her holiday and intends now to go on with her professional avocation.

On the whole I think your conclusion with regard to Clara is probably a wise one. Of course Eva may not want to have

4

her in the Spring, but
that we cannot help. Our
winter climate would no
doubt be better for C. than
the English one.

I have heard nothing further
as to a Carpenter who would
undertake to give B. a little
training, but really have
not had time to make
enquiry.

Will I hope is still as
well and enjoying a little
sur. Of joy I have heard
nothing since my return to
town.

With love

Ever your friend Bernard.

Let me know when you
want some more money.
