McGibb

Mother,
What will you think
of me for not having
written before. I was
so busy with exams
until Thursday, & then
was my time was fully
occupied with doing
shopping. I am sure
you will be surprised
to hear of me being here.
& I never saw a place
looking more beautiful

it is just perfect, and
the weather is delightful.

On Saturday Morning Louis
& I canoed and afterwards
bathed. In the afternoon
we all played tennis,
& in the evening danced
& sang even songs. We
had just gone up to
bed (11.45) when we
heard the bell ~~to~~ ringing
(there is a great big ship
bell hanging on the back
gallery) we knew that the
boys were up to some tricks.

We looked out of the window but could see no one. However after a little while we heard the bell ringing furiously and on looking out of the window we saw a thick cord pulling backwards & forwards. Mr Shepherd went out & cut the string. On Sunday ^{morning} as there was no church in Como we went up to Hudson to church, and walked both way, which gave us a good six miles walk. In the afternoon I

went to see the fibbs.
Mrs fibb seemed very well
but Mr fibb was very frail
and exceedingly deaf. However
he took me all round the
grounds and presented me
with a bouquet of flowers.
In the evening we went to
church here, and afterwards
went for a walk. We were
going over to Oka this morning
but the wind is too strong.
This afternoon we are going
to play golf. I have done
nearly all your commissions
so will not have too much
to do when I return to town.
With much, much love
