

Bernard Jr
re - expected him
for hawks
ladies slippers.

Sunday Little Metis
July 13th 1902

Dear Mother,

We have been having just perfect weather down here now. Con sailed for the North shore last Thursday and expects to be back by next Saturday.

Yesterday morning I left the house about 11 o'clock with Stewart peck and we walked out to the point and then cut into the woods and we wandered about in the woods looking for fish hawks nests and we found a couple but they had young ones

(2)

in them so we let them
alone and we also shot
two large fishhawks &
last of all was that
we each got such
a large bunch of
ladies slippers in
some places in the
woods we could
hardly take a step
without squashing
several of them &
also the pitcher
plants were just
thick with their
flowers, we did not
get home until after
eight o'clock in the
evening, I will have
to close now so
good bye,
your affec son
Bernard
