

Aug 31 / 1902

my duty to the children,
Father, F. D., or Aunt &
that I just imperfectly
do something for each,
On Saturday afternoon
I drove to Yartigue
with Bernard, Victor, &
Uwen, the boys asked
me Victor giving as a
reason that they did not
think I had as many treats
as the others, it was
nice of them. Bernard
had his gun & shot
five or six birds, 2 other
Careys Chickens, Plover,
Scribe, etc. Bernard

has gone off shooting a
good deal. This summer
& is getting quite sensible
about it, only killing
birds for food, or rare
ones which he has never
before seen. When
he gets a new one
he takes it down to
Mrs. Nelson & they find
out what it is.
Bernard's triumph was
a duck which he got
the other day, which
was very good. We
also have eaten
quillmots & all sorts

of extraordinary birds.

Aunt Flo has just presented the children with the "where with all" to buy ice creams, which has caused great delight as it is very hot.

I do not like to think of your coming by the Manchester line, it was different with the Miss Howards for there were two of them, also two of the Cobers. You know there is not even a Stewardess, & if you were all & alone it

would be horrid -

I do hope something else
will turn up -

With much love,

Your daughter

Clara
