

Graduate
class - 1907

295-University St.

May 18th 1907.

Dearest Mother,

Grandma is not well - Yesterday she did not feel herself but had nothing definite the matter with her. She went to bed early. This morning she had a slight pain in her right side - I telephoned for Dr. Blackader at once

To Tell you but I thought
it only right that you
should know - I will
write to you by each
mail & tell you just
how things are going.

Dr. B. is not coming
again until the morning,
he evidently hopes that
the continued politeness
will check any further
trouble - I do

hope Father was did ^{the same}
not find it too trying
sitting up - Much love

& put a licee'd poltice
on - Dr B. did not
appear until this after-
noon, detained & detained
etc - I can get very
little out of him, but
he evidently fears
pneumonia - He says
it is not pneumonia
but if great care
was not taken ^{it might}
become so - He teleph-
oned for a nurse,
& she is here now -

Miss Schneider who was
with Geo. J. G. Ingleton, such
a nice woman, & G. H.
has quite taken to her.

The hired politics
are to be continued -

G. H.'s head is aching
& she feels feverish
but otherwise ^{she is} com-
fortable - I am

so sorry to have
this news to write,

Conrad wanted me
to wait until tomorrow
