

Faculty of Medicine, McGill University,  
Registrar's Office,

Montreal, December 10th, 1907.

RESOLUTION of CONDOLENCE PASSED at the MEETING of the MEDICAL FACULTY  
of MCGILL UNIVERSITY, SATURDAY, DECEMBER 7th, 1907

-----oOo-----

IT WAS UNANIMOUSLY RESOLVED:-

"THAT the Members of the Faculty of Medicine place upon record  
"their appreciation of the deep loss which they, as well as the  
"University as a whole, have sustained in the death of their late  
"Colleague, Professor B.J.Harrington.

"The University by his untimely death has lost a scholarly  
"professor whose life was devoted to the welfare of his Department,  
"and of the Museum, of which he was the Director. His old students  
"retain as one of their dearest recollections of McGill, the kindly,  
"personal interest he took in them during their undergraduate days,-  
"an interest which followed them through life. To his colleagues  
"in all the Faculties of the University he endeared himself by his  
"broad sympathy and his sincerity, while his conscientious and able  
"researches in the field of Mineral Chemistry have added much to  
"the reputation of the University which he loved so well."

"The Members of the Faculty of Medicine wish further to extend  
"to the family of their late Colleague deepest sympathy in their  
"great sorrow."
