

McGILL UNIVERSITY,

MACDONALD CHEMISTRY AND MINING BUILDING.

DEPARTMENT OF  
CHEMISTRY AND MINERALOGY.

MONTREAL, 13<sup>th</sup> January 1908

Dear Mrs. Harrington,

The McGill University Chemical Society, of which your late husband was founder and first president, has instructed me to convey to you and your family their sincere sympathy in the very great loss which you have sustained, and to express to you their high appreciation of Dr. Harrington, both as a professor and as a man.

His unflinching kindness and good-nature in dealing with his colleagues and students, his patience and perseverance in conducting the manifold branches of the work entrusted to him, and his sterling character have not only endeared him to us all, but have had such an effect on our character that his memory will continue "to live in lives made better by his presence."

Once more begging you to accept our deep sympathy,

Believe me, dear Madam

Yours most sincerely

Harold Norton Evans.

Sympathy letter  
Re B. G. H.  
J. M. Newie Evans

13th January 1908

Dear Mr. Thompson,  
The Mr. G. H. Thompson, who was your late husband's son, has just written me to convey to you and your family their sincere sympathy in the very great loss which you have sustained, and to express to you their high appreciation of Mr. Thompson, both as a professor and as a man.  
His wonderful knowledge and great nature in dealing with his colleagues and students, his patience and perseverance in conducting the various branches of the work entrusted to him, and his sterling character have not only endeared him to us all, but have had a great effect on our character that his memory will continue to live in our hearts by his presence.  
Please write telling me to accept our sympathy,  
Yours most sincerely,  
J. M. Newie Evans
