

MCGILL UNIVERSITY,
MACDONALD CHEMICAL DEPARTMENT.

NEVIL NORTON EVANS, M. Sc.
ASSISTANT PROFESSOR.

MONTREAL, 18th. March, 1908.

My dear Mrs. Harrington,

In accordance with your request of yesterday, I talked over the matter of the mineral collection with Dr. Adams, and he said that he thought Mr. Graham's estimate of the value was probably as close as it was possible to get; that indeed the value of the collection as a whole would be, if anything, less than the sum of the values of the individual specimens.

I have therefore written to Dr. Douglas as follows: "Mr. Graham has been over the collections most thoroughly, and reports that the minerals in this building are worth two thousand dollars; a collection of zeolites, &c. in the Museum building, seventy dollars; a unique crystal of pyrrhotite (figured in Dana), eighty dollars, making a total of two thousand one hundred and fifty dollars (\$2150.-)"

Hoping that this will be satisfactory to you

I am

Yours very sincerely

Nevil Norton Evans.
