

Monday

Pickering Villa

1892

1886?

Dear Mother

We began work on Monday last. There are about 100 more boys than last year though ~~in~~ the sixth form is smaller than the fifth was last year. All our masters wear gowns now. We are supposed to be in our places 10 minutes before the hour so breakfast will have to be sharp on time when you come up.

Tell father to point  
out H.M.S. Blake to Conrad  
at Quebec as ~~the~~ she  
is the largest and finest  
ship that is likely to be  
seen on this side of  
the "Herring pond"

The Prot. Board of Sch.  
Com. are trying to  
get that field on Bell  
street between Burnside  
& Sherbrooke for a play-  
ground for us.

The weather here  
has been cool &  
cloudy.

I went a drive round  
the two mountains  
on Saturday with Clifford,  
Hard and another fellow  
Peter Kidpoth has  
just had an operation.  
Regie has had his  
leg broken in two places  
by his horse falling  
over backwards  
on him.

Mrs Hale is working  
in the house  
to-day.

Yours aff.  
Eric
