My own dearest,

Your letter from Lucie reached me yesterday, it is so good of you to write every day, for I really did not think you would find time to do so, only don't stay up too late or make letters for me an extra burden upon your already full days -

I wrote to Nina two days after the note I sent by you - poor dear 'it' does seem a shame of me, but really I cannot find time for more than my daily letter to you -

yesterday we had a Bible meeting - about a dozen Col. Kautman & Mr. Tarrence the only gentlemen. We began about

the woman of Samaria, & a very
curious question came up -
As to whether H^{E} acted on earth
as a merely human being -
included within the Spirit
without - measure, or as to
whether he acted with the power
of his divine foreknowledge &
wisdom - It is a point I had
never thought of, & is very difficult
as such great difficulties lie on
either hand, like Sylla & Charibolan
still though either essential or
practical, it is a point I don't
like to look into. Some time -
The fact that I do not seem able to
get any settled quiet-time to read
is the one point in my life which
causes me dissatisfaction, I do
so wish that I could remedy it, in
some way -

Nearly every evening we have
a small crowd on our gallery,
of those who desire to gossip in a
friendly way - I keep my baby
socks for such occasions, & can
congratulate myself Pharisae-like
in having something to show for

my evening.

We have just received a present of vegetables wh. are most acceptable. Wape said he told Hamilton to send a barrel when there were any but he has not done so - He ought to send them by steamer if he does send any bring some with you when you come clear, for all we be pleased.

Mr. Demistain has been out fishing at Metis Lake, distant 50 miles & caught 80 lbs. of fish in one day - many of them, he calls salmon trout, weighing from 4 to 10 lbs each. I never saw such large ones before - indeed the fish looked different from any other species of trout - I am familiar with.

Maar will Eric has a large mosquito bite on his left cheek I wish his teeth well come soon for they seem to tense him when they are, he bites things so, & sometimes gives quite a little wail if I touch his mouth unadvisedly.

I am sure you will see a great
change in him, I trust you may
see it soon - Once or twice I
have tried to see my way to some
plan for domestic arrangements
next winter, but I can see no
good one I have concluded to leave
it - till my wise husband comes
down & take his counsel on the
matter -

Oh dear one - letters are
very unsatisfactory..... I become
more & more so as time lengthens
our separation. Still nearly
three weeks ago, I surely
that is the greater part of ~~the~~
the time, I shall begin to count
each day one day nearer, now -
I am so lazy, I walk very little
have never taken a really long
walk yet - You will have to
put me in regular training
when you arrive -

Fondly, dearest -

Your Anne
