

McGILL UNIVERSITY ARCHIVES
ACC. NO. 1010
REF. 294

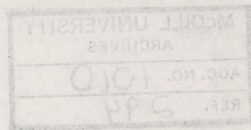

McGill College,
Montreal.

Monday

My dear Dr Harrington,

I have to thank
you for your note on the
Concedents, which was
quite a treat. I returned
on Thursday, and am
at work in the museum
happily.

I called to see Good
yesterday. He is doing well
and says the doctor may
let him sit up this
week. He expresses himself
as very grateful for your kindness.

Mr. Dill College
Lecturer

If you see Miller give
him my kind regards;
but say I have not yet
had time to go over
the Templeton specimens.

Saw Richards at
Mets and went with
him to look at the
hard sandstone under
the church. Though it
is clearly unfossiliferous
of the other beds, he
still seemed to have
after working at Potsdam.

to be done
27th April

but promised to examine
the place.

Left them all well
at Metis and hope
William will be able
to remain to pack
up for Wednesday.

Trusting that you
are having a pleasant
time and are making
good collections

Remain

Yours sincerely

W. Dawson
